The institute has constantly and progressively assisted students in achieving scholarships not only from the various trusts and foundations of India but also from foreign trusts. Scholarships have almost become a necessity in pursuing education. Apart from scholarships there are many organizations offering interest free loans and low-interest rate loans to students for higher studies in India as well as abroad. The institute has constantly and progressively assisted students and their parents in getting scholarships not only from Central Government and State Government but also from the various trusts and foundations of India and foreign trusts.

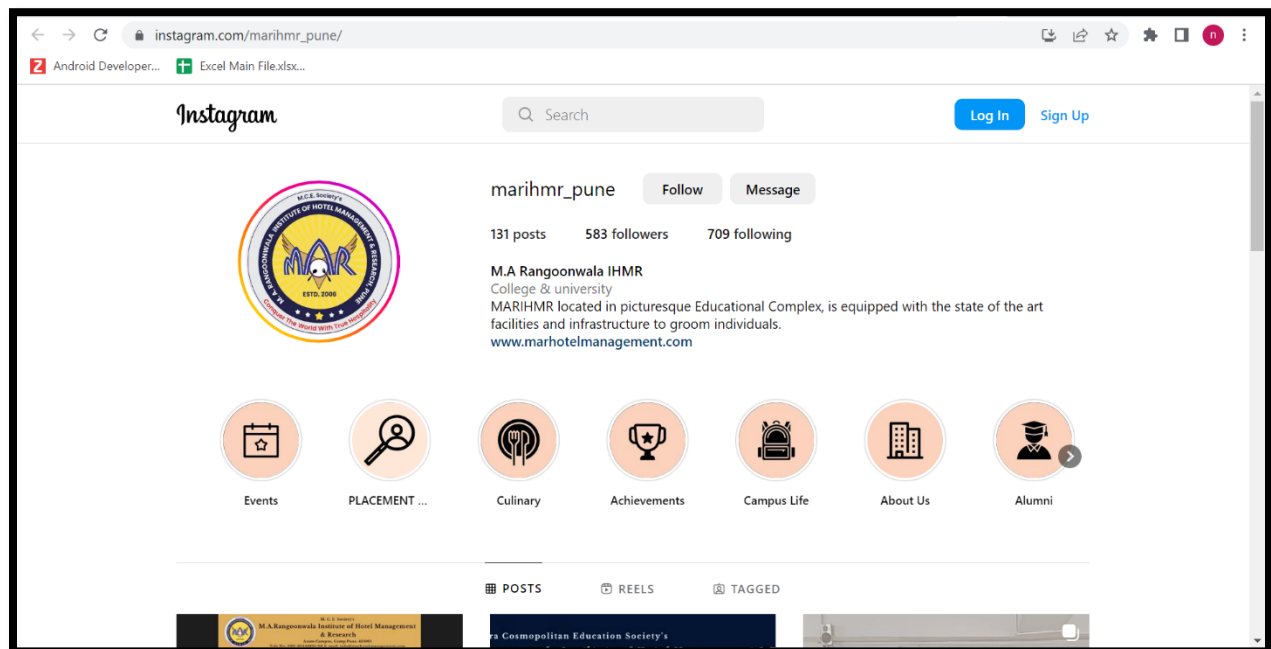

In order to reduce the gap between the scholarship foundations and students and with the aim to increase the benefit to the students the institute has been continuously arranging scholarship workshops. The institute is also working as a facilitator for a US based FFE Scholarship and a Delhi based FSC Scholarship foundation. Till date thousands of students have been benefited.

The lists of scholarship foundations/Funding Agencies have been forwarded to many students/institutions all over India on their request. It is commendable that the institute has been quite successful in the past years with a large number of students having received scholarships from different trusts
